**Subject:** Dan Powell matter - memo to file

Memo to file:

On Monday July 28, 2003, Dan Powell reached me by phone at about 5:10 PM. He stated that he began reclamation 10 days ago at the site and that he is still intending to get the bond so he can continue to mine at the site. He asked me what his deadline was and I replied that I did not have the Order right at hand so did not know. I asked if he had received the order, he replied 'yes'.

I told him that the matter was no longer in my hands but in the Board's hands and Attorney General's office, thus, I could not grant extensions of any sort. He asked if I would place this information in his file. I then transferred him to the Board Secretary for him to leave a message with Mary Potter, which we did jointly.

cc: Allan Mashburn, Board Chair
